Or han Asyloms at Richmond and 5200 to the

Judge Wright has delivered his opinion in the authorought by the late Atroney General against Livingston, to test the validity of the title to the Livingston Manor, and which was tried in Columbia county last spring, by giving judgment in favor of the defendant.

The Storm.

The Storm is still reging. The Western train, due early this morning, arrived this afternoon. No trains since, East or West. The Housatonic train left for New York at 3 o'clock this afternoon

Ets Storm at Albany and the West. We have had a heavy fall of snow and a storm is now raging from the north east. The Southern Mail is in, but we have no mails from other quarters. The storm west is said to be very severe.

The Storm on the Lakes.

We have had a severe gale from the North East, accompanied with a heavy fall of snow, for the last 24 hours, and it is still raging learfully. The pressure of the snow has forceed in the roofs of several buildings, damage about \$1,000. No lives lost. Fears are entertained for the safety of the propeller "Ongoutz," which left Cleveland for this port on Saturday and has not yet arrived. She has probably gone ashore somewhere not far west from this port. She has a cargo of pork and other produce, and also several passengers. She is probably the only Lake craft which was out last night. The steamer Queen City and propeller G. Taylor arrived last evening.

### XXXIst CONGRESS ... Second Session.

SENATE ... WASHINGTON, Monday, Dec. 23. SENATE... WASHINGTON, Monday, Dec. 23.

Mr. Dawson of Ga appeared and took his seat.
Mr. Char presented petitions praying for a modification of the Tariff of 1846. He detailed the gricvances of which the petitioners complained, and said that as there was now a calm upon the lately disturbed surface of public affairs, which calm he hoped was a real one, he thought that Congress should take up the Tariff and consider it in a kind, liberal and national spirit. He did not wish that it should be taken up with a view to alter its essential principles, but to make some not wish that it should be taken up with a view to alter its essential principles, but to make some provision for the prevention of frauds and abuses. Something should be done. It was no longer doubtful that the fires in the furnaces were daily being extinguished, and the operations of the spindle will soon be suspended. Would Congress do anything to suspend this downward tendency? He hoped they would, and that it would be done now when the subject which has agitated the country was settled, and he hoped forever.

Mr. Bervon introduced the bill to relinquish the collection tolls on the U.S. stock on the Louisville and Portland Canal, and to provide for the free navigation of the same. He explained the bill at great length, and it was then referred to the Committee on Hoads and Canals.

Notices of several bills were given, and several unimportant resolutions of inquiry were offered

notices of several oils were given, and several unimportant resolutions of inquiry were offered and agreed to.

Mr. Gwis moved to take up the bill to provide for the examination and settlement of titles and claims to land in California.

After debate, the motion was agreed to-Yeas

27, Nays 16. [This bill was introduced at the last session by Mr. FREMONT, and after debate and amendment was laid on the table ]
Mr. Gwis offered a substitute for the whole

bill. The substitute, in substance, is as follows:

SEC. 1. Provides for the appointment of three
Commissioners, to be appointed by the President and Senate

2. That all persons claiming land in Cali-Sec. 2. That all persons claiming land in California by virtue of any Mexisan or Spanish grants previous to July 7, 1846, shall present the same to said Commissioners, who shall preced to examine the same and decide whether it be valid or invalid. The District Attorney to represent the United States, a Deputy Marshal to be appointed for the Board when it is in session.

Sec. 3. The Commissioners, in deciding, shall be governed by the Treaty of Hidalgo, the laws of nations, the usage and customs of the Government.

nations, the usage and customs of the Government from which the claim is derived, the decisions of Supreme Court and laws of prescription. KC. 4. Testimony to be in writing and to be

preserved 5. Commissioners to be allowed \$6,000 each and 20 cents a mile.

SEC. 6. A Secretary to be appointed; salary

SEC 7 Provides for appeals to the Supreme

SEC. S. 9 and 10 Prescribes the duties of the

Surveyor after the final decision by the Board.
The substitute was agreed to.

Then, on motion of Mr. BENION, the bill was Mr. Manath moved, and it was ordered, that when the Senate adjourn it be till Thursday— Yeas 25, Nays 19.
After an Executive Session, the Senate ad-

HOUSE OF REPRESENTATIVES.

Mr. HAYMOND asked and obtained leave to introduce a bill giving lands to Virginia to aid in the construction of certain railroeds therein.

Mr. RICHARDSON FOSE to a personal explanstion. A letter had been written to The New-York Tritune, dated December 18, from this City, he said, which accused him of having, as Chairman of the Select Compsittee appointed on the charges against Secretary Ewing, last Session, suppressed from the published documents a letter from Mr. Ewing, vindicating himself from certain of the charges. This, the writer says, if done by Richardson, ought to cause his expulsion. If Mitchie, the printer did it, he should be punished for contempt.

Mr. RICHARDSON reviewed the letter and pro nounced it from beginning to end an unmitigated falsehood, and coming from such a correspondent should appear in such a paper. All recollected the Editor of that paper as a member of this House, and with his correspondent a fellow feeling made them wondrous kind.

The bill prescribing the mode of taking testimony in cases of contested elections was debated and finally nassed.

mony in Cases of Contract and finally passed.

Mr. McDowell moved that when the House adjourn that it be till Thursday.

Mr. Westworth inquired whether it would at be more characteristic in the members to take the day after Christmas. [J. aughbr.]

Mr. JONES said that we can take that too—

motion was agreed to: Yeas, 92; Nays 33.

Mr. STANLY asked, but did not obtain, Asuspen-

aion of the rules, to offer a resolution giving the use of the Hall to Mr. Whitney to explain bluoro-ject for a Railroad to the Pacific.

Mr. CALDWELL of Ky. asked leave to introduce a joint resolution, that nothing in the Land Bounty Art of September last shall be construed to pre-yeut the sale and transfer of certificates or land

warrants prior to location of the same or issuing

patents. Mr. Robinson, Chairman of Select Committee in the subject said they were ready to report in avor of what had been brought forward by the

gentleman.

Pending the motion to suspend the rules to enable Mr. Caldwell to offer his resolution, the House adjourned till Thursday.

## CITY ITEMS.

The weather yesterday was rather more of all sorts than that of the day before. The chief feature, however, was the wind, which blew a perfect horricane from morning to midlight. It was from the South west, West and North west, and here temperature to suit each point. There were two or three flurries of snow, but otherwise nothing but wind, cold, raw and in

PAINFUL BUT DOUBTFUL RUMOR -There was e story effort last night that the U.S. Mail steamship Obio, from New Orleans and Havana, had gone ashore at Squam Beach. We could not trace it to any reliable source, and, from the fact that the wind was blowing violently off shore, we judge that it was without foundation. It is hardly possible that any vessel could be driven ashore in the eye of the wind. We append the names f the passengers who embarked on the Ohio at

ard, Mrs. Deia Hant and child, Mrs. Fleming, J. C. Paimer, Wim. Buch.

For Harono.—J.: P. Doane and lady, Mr. Shannon, lady, child and varse; Mrs. Evans, J. M. Laborde, Mr. Wilmer, P. M. Experin, G. English, Miss. J. Espinos, J. Laning, H. A. Murphy, M. Irgueler, M. Mesen, D. D. Boliman, D. N. Mariana, D. A. Deshour, N. Jorden,

For Charace.—G. P. Johnson, E. Jewett, J. B. Martines, H. Kesan, V. Milleran, Mr. Sprague, Mcs. L. M. Mitchell, B. Inwester, J. Breel, D. Insersol, G. Ruinke, M. De Silon, A. D. Frette, L. Levi, S. Leonard, J. Schwan, C. Bartine, J. B. Jetser, H. De Compay, G. Asfelid, Rev. Thes. Macrader, and Jany, W. Katling, M. Famproce, R. Asstin, B. Tilldite, H. Levy, S. Harris, T. M. Swon, C. D. Poctan, A. Leonar, Thom. See, Hou, A. G. Penny, who has

Among them are Hon. A. G. Penn, who has just been elected to Congress to succeed Mr. Harmonson in the Third District of Louisiana; Gen-Busk, Senator from Texas: Gen. B. C. Howard, of Baltimore, formerly U.S. Senator from Maryland, and Reporter of the U.S. Supreme Court; and Hon, M. Schoonmaker, member elect to the next Congress from the Ulster District, N. Y. with his lady.

PUBLIC HEALTH -- We have not room this morning, in consequence of a press of advertisements and other matter, for the detailed Report of Deaths for the week ending Saturday, Dec. 21 The number of deaths for the week is 317, of whom 50 were men, 59 women, 114 boys and 92 girls. Of these deaths 32 were from consumption, 24 dropsy in the head, 36 from inflammation of the lungs, 25 mensles, 15 each from croup and small pox, and 16 from convulsions.

LAND SLIDE .- About a thousand cubic yards of the earth, at the deep cut at the north end of the Tunnel, near Garrison's, opposite West Point, on the Hudson River Railroad, were washed upon the track, night before last. This caused a detention of about three hours yesterday morning in the arrival of the train over the Hudson River Railroad. The rain being very heavy, a locomotive was sent from Poughkeepsie, in advance of the morning train. On approaching the northern entrance of the Tunnel, near Garrison's Landing, the fengineer saw a mass of rocks lying across the road; he leaped from the engine, and was not much injured: the locomotive dashed against the rocks and was much damaged. On the morning train coming within a mile of the rock slide the signal of danger was given, and the train stopped about a 100 yards from the scene. The rocks have fallen at the northern end of the Tunnel.— They completel, bury the road for about 200 feet, and at one point to the depth of at least 20 feet. There must be at least 2,000 trues of broken rock. There is a mass of rocks next to the chasm, which will require throwing down in order to render that point of the road safe.

Attention is directed to the advertisement of Historical Tableaux of New-England to be exhibited soon at Stoppani Hall.

RATIROAD OBSTRUCTIONS .- We learn that one of the trains of the Hudson River Railroad was forced to return last night on account of the absence of several yards of the track somewhere near Sing Sing. The heavy rain had undermined the superstructure, and the rails had gone into the River. The Road will doubtless be put in order today

L'Eco B'ITALIA.-This journal, the only one in the Italian language published in the United States, is about entering on a new volume and we understand that it is to be enlarged and improved and that the Editor, Signor Secchi di Casali, proposes to devote considerable space to American politics. This will greatly increase the value of the paper to our fellow citizens and resil dents of Italian birth, at the same time that it will still offer the same advantages to those Americans who take it as a means of familiarizing themselves with the languages or of keeping up their acquaintance with the events of Italy. The success of the Eco thus far is a pledge of its future prosperity and usefulness. Published at 102 Nas-

TEMPERANCE LECTURE - We understand that Mr. John B. Gough will deliver a free Temperance Lecture in the Presbyterian Church, corner of Thempson and Houston sts. on Wednesday evening of this week. The Temperance people will do all that is possible to restrain the fashionable indulgence in wine at the coming New-Year Holiday.

ANNUALS, &c .- Those who think of purchasing Holiday presents would do well to consult De Witt & Davenport's list of Annuals and Gift Books in another column.

SUBMARINE WIRES .- There are three lines of submarine telegraph wives in working operation under the Hudsh River: four under the Connecti ut, two under the Delaware, and eight under the Harlem River, all coated with gutta percha, and one on O'Rielly's line, under the river at Chicago.

Numo's.-So great has been the success of Mazulm it is to be acted every night this week, Saturday not excepted.

The Sixth-avenue Railroad was taken up n the Board of Assistants last night, but it was forthwith laid on the table.

WARREN'S NEW THRESHING MACHINE,-We were present on the 18th inst, at a successful public trial of his ingenious machine. Its peculiar construction is such hat the grain, when introduced, is constantly and thor oughly threshed, while the straw is hurled forth unbroken and fit for being rebound in sheaves for sale. The annoy-ing accompaniments of the operation of former machines— the frequent clogging up of the entrance, and the whirlwind of dust and have as a transfer of the contract. of dust and broken straw, are thus avoided. It may be sa'ely calculated that this machine will thresh grain at the rate of 30 bushels, and oats at that of 50, per hour. It can also be so arranged as to shell corn, and thresh rice, flax and all small seeds. (For further particulars see Adver-

COURT CALENDAR-This Day .- Superior Court. -Nos. 20, 21, 135, 108, 105, 85, 149, 150, 120, 134, 88, 151, 103, 154, 155, 36, 150, 161, 162, 164, 2 167, 171 to 175, 51, 131, 139, 141.

The opera was postponed last evening | Ing trade. Cotton Pantalooneng are in limited rewing to the severe illness of BERTICOA. On Thurday evening Il Giuamento.

Mr. WEBSTER arrived in the City yestersy, and is at the Astor House. To day, at noon, Mr. W. will receive his friends at the Governor a Room, City Hall.

A Novil Exhibition.-We call the attention of sur lady renders to a novel and beautiful collection of Cenary Birds now exhibiting at LaFayette Hall, Broadway These birds are none of your sickly, tallless specimens we so frequently see confined in wire cares, drauging out a are the churce birds of those who having a rassion for the Canary, devote time and money to its culture and who forming themselves into an association, have an annual ex-hibition of the best of their stock, and award valuable prizes to the fortunate owners of the most perfect speciments.

and size to which the Canary has attained, will derive much pleasure from a visit to this exhibition, which is similar to character to those frequent in England, France and Ger point almost beyond rivalry \$100 is considered a fair su one possessing the requeste good qualifies, which a fancier defines with the precision of a philosopher.

[COMMUNICATION.] Seeing a notice in your paper yesterday of the Hydro-Oxygen Microscope Exhibition, to be re-peated at Spring at, Churck on Christmas evening, I would say, that I witnessed this on Monday evening, the litth, and mean to be there ugain. There has never been anything of the kind in this country equal to 11, and Mr. Starr's re-searches into minute creation succeed admirably in giving more instruction to grown persons in one hour than can be gained by a life spent in reading. I would advise all your readers who can to be there. An Eye WITNESS.

CHRISTMAS PRESENTS .- Messrs. Bard & Brothers, 101 William st. have a new and beautiful assortment of Gold Pens, very suitable for Holiday Pre-sents. They have just introduced a number of new styles, to which they invite attention.

CHRISTMAS CARE,-Mrs. M. H. DUSENBURY corner of Charles and Washington sts. manufact tures a great variety of the richest and most deli care Cake adapted to the season and the public taste, which idents in that part of the City will find very much to ir liking. Orders from any part of the City promptly filled. We have seen no fairer Cake this season than hers

## BROOKLYN ITEMS.

SUNE .- About noon yesterday, during the gale, a coal barge moored at the foot of Fulton st sunk those engaged in unloading it having barely time

PAIR FOR THE BENEFIT OF THE ORPHAN ASY-LUM .- The scholars attached to Mrs. Demarest's school hold a fair this afternoon and evening, the proceeds of which are to be given to the Brookyn Orphan Asylum. The Fair will take place at the School Room, corner of Henry and Orange sts, and will be worth a visit from the friends o

MONDAY, Dec. 23-P. M. The Stock market has given a most violent surge upward to-day, and has exhibited more ex citement than we have witnessed for a long time Eric advanced 3 \$\forall \text{cent, selling at 90}\$. Farmers' 2\forall \forall \text{cent, closing at 59}\$. Reading went to 751; Norwich to 681; Mohawk 921, and Harlem 67], showing 2 P cent advance. Nearly all the Fancies improved rapidly-Long Island was the only exception. The notice of sale has checked the movement. Erie securities were higher, In come selling at 97. Government stocks were in

fair demand at better prices. The Exchange market is quiet but firm. Sterling is 10 P 10 1. France, 5.15 @ 5.12 1. All Continental bills are very firm.

In Freights there is not much movement, but ship owners are firm. To Liverpool the rates are 18d for Flour: 41d for Grain; 3-16d for Cotton. with engagements: 17s 6d for Bacon, with engagements of 200 tes. To Havre, Cotton is Je.

In Money there is no change, and the supply continues very abundant. The Banks are discounting with freedom, and but a small amount of prime paper is in the street. On call Money is pressing on the market at 5 26 P cent on good Stocks, and less on Government securities. But for the activity in Stocks, which employs large amounts of capital, Money would be a drug. Pa per goes at 500 P cent for strictly first class short names, and 6 28 P cent on long. No one seems to anticipate any stringency during the Spring and many seem to operate as if we were never to know again a tight market. The losses of former years are forgotten.

We have arrived now at the dullest period of the season for Dry Goods, yet a limited business is doing to meet the Clothing Wants of California and the South. Prices show much steadiness and expectations are strong that for all articles of which the stock is not heavy, higher prices will rule at the opening of the New-Year's trade. The prospect is that with the present limited production of goods and high price of Cotton, the Spring demand will sustain and raise prices. Unbleached and Bleached Shirtings and Sheetings are alike dull; yet the very light stock of the former makes prices more buoyant that the heavier stock of Bleached, which, however, are steady. Drills are quiet but steady, with a limited production. Osnaburgs are in demand, and prices are advancing. The scantiness of the supply alone limits the improving inquiry. Denims are in request at full prices. Stripes are in limited demand at steady rates, with a fair supply. Ticks are quiet; the lower grades only are wanted. Cotton Flannels are low in stock with a demand lingering with the season. Printing Cloths show no great activity of demand, but prices are steady. The stock which is accumulating is only considered light in reference to the demand which is anticipated to be near at hand. Prints are in fair request, especially for the season, and prices are buoyant. Ginghams are quiet, but there is a fair inquiry for new Spring styles, and prices are strong. Chambrays are in demand for the Cloth-

quest, with increasing supplies on the market. which are firmly held. Muslin de Laines are quiet, but considerable inquiry is making for the Spring styles, which are coming forward. The importation of foreign De Laines will be increased in consequence of the destruction by fire of one out of our two mills for the production of these goods. The demand is large and admits of a great and profitable extension of our domestic makes. Prices are steady and stocks are light. Linseys continue dull and heavy. Cloths are firmer. The small stock, with the advance in Wools, insure an advance in goods. The destruction of the Hamilton Mills will limit the production of Domestics Satincts show a slight improvement both in demand and prices. Sheeps Grays are steady, with a limited demand, fair for the season. Fancy Cassimeres are dull, and Spring styles are coming forward. The only demand is for plain goods. and that but small. Cash meretts are in growing request. Shawls, with a reduced stock, are quiet but firm. Flannels in only partial demand.-Tweeds are in very moderate request, but stocks and prices are rather heavy Jeans are steady n price, but with no quickness of sale. British Woolens are more active, principally for the City Clothing trade, and the large but decreasing stock is firmly held. Broadcloths form the bulk of the stocks, but these are staple goods, and no new supplies come forward but at increased cost of production. The importations, as advised, will parted a much firmer tone to the market. French Goods, from the increasing cost of the raw materials, are also coming out at higher prices, which is interfering materially with the demand. How ever, early orders have been met at more mode rate prices, and these are in course of transpor tation, and stocks here have lately accumulated. Silks, or mixtures of Silk and Cotton or Silk and Worsted and Woolen Goods, are the chief importations from France, and these will continue to come in large quantities. The increasing wealth of this country is increasing rapidly the consumption of articles of French production. The current of the taste and fashion of the coun try has set strongly in for all French materials of Clothing; and the increasing cost is no great impediment to the consumption. It cannot only ffect slightly the rate of increase and induce a less accumulation of stock. The French trade does not afford so much reciprocity as other foreign trades. We receive much more than we export to them, while the preponderating bulk of our Specie exports go to France to balance the The annexed statement shows the Exports

from this port for the week ending Dec 23: LONDON.
